

Sanitizing Fogger / Misting Service

A germ fogger is an invaluable tool in our ongoing efforts to protect the health of our client's facilities and employees. This efficient machine allows us to quickly and easily sanitize an entire room without any hands-on cleaning.

The fogger/mister machine releases a fine mist of powerful, disinfecting contents that disperse throughout the room, eliminating germs, bacteria, and other harmful microorganisms on everything the fog touches.

- ✓ Atomized particles reach up to 15 ft. settling in all hard to reach areas that are often missed or overlooked
- ✓ Lightweight, battery-powered machine for enhanced mobility & portability
- ✓ Quickly and easily sanitizes without the need for hands-on cleaning
- ✓ Incorporates Spartan's hospital-grade virucidal solution Hepacide Quat II
- ✓ It is safe to return to the room one hour after treatment.
However - the longer the solution is able to sit, the better the results.
- ✓ Simple and safe to use!
